

Multi-Payment PIN Pad Processing

ingenico
Smart
terminals

The iPP310 PIN pad from Ingenico™ Group provides checkout autonomy, security and speed.

The Ingenico iPP310 features everything needed to facilitate the acceptance of mag-stripe, EMV® chip and PIN, contactless cards and NFC mobile wallets. Customers insert, swipe or tap cards for payments, while a dedicated clerk-facing terminal remains on the counter.

iPP310 Features and Benefits

- Easy to integrate with iCT200 series terminals
- Supports latest EMV, PIN debit and PCI standards
- Integrated contactless reader facilitates tap-and-go payments via card, mobile phone, including Apple Pay™
- Connect to any POS in seconds with seamless plug-and-play installation
- Lightweight and ergonomically-engineered for comfortable card swipe/insert/tap, PIN input and data entry
- Intuitive menu-driven display ensures simple navigation
- PCI PTS 3.0 certified for secure data and application management

Plus ... Accept American Express® Card transactions at the same rate as other payment cards* –

American Express Cards can potentially bring in new business and help boost your bottom line. And it's all through TSYS®, all your processing information with one statement, one point of contact and one great price!

For more information about using the iPP310 in your business, contact your merchant services representative today!
